

Pin & Sleeve Devices

IEC 60309-1, IEC 60309-2 & Switch-Rated Options

For North American & International Applications

TABLE OF CONTENTS

LEV Series	3
ArcArrest® Switch-Rated	20
International Configurations	24
LEV Series Marine Grade	Back Cover

LEV Series

Designed to be stronger and easier to assemble for the most efficient installation and superior performance in any environment.

LEV Series with Award-Winning Inform™ Technology

IIoT solutions for smart manufacturing, enabling safer, more productive operations.

ArcArrest® Switch-Rated

The simplest and fastest way to de-energize industrial machines and equipment. The local means of disconnect for industrial machinery as required by the NEC and OSHA.

International Configurations

Designed for fast and secure wiring in various IP ratings to meet end-user needs.

LEV Series Configurations

COLOR, NUMBERING AND RATINGS | INDUSTRIAL

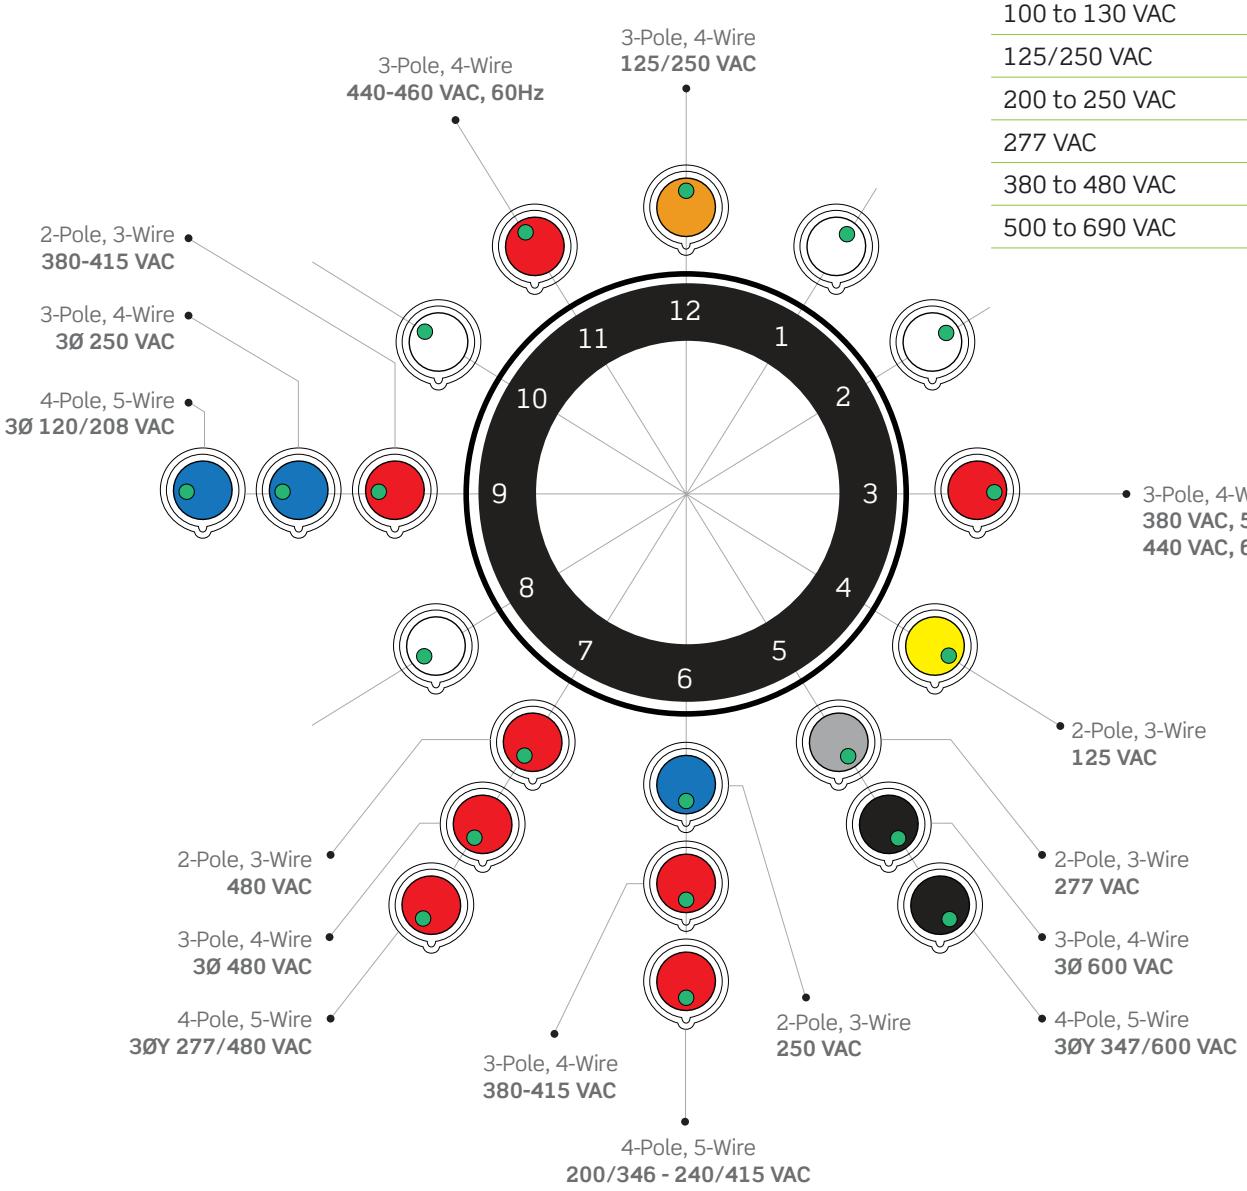

North American IEC 60309-1 & IEC 60309-2 Clock Diagram

A Guide to Color, Numbering and Ratings

In order to prevent connecting devices to an incorrect power source, the IEC 60309 Standard specifies both physical attributes and marking requirements to prevent such mismatch. The dimensions of the device and ground pin, color of the device, and location of the ground pin are all designed for safety requirements.

Devices are color-coded based on voltage and frequency, and these combinations are distinguished by the location of the ground pin relative to a keyway in the housing. The ground pin can be in one of twelve locations spaced at 30° intervals around the circle on which all the pins lie representing a clock. The various positions are referenced from the view of the open side of a socket (or connector/receptacle); the 6 o'clock (180°) position is at the same angle as the keyway, and is oriented downwards. The ground pin also has a larger diameter than the other pins, preventing the wrong type of plug being inserted into a socket, connector, or receptacle.

Rated Operating Voltage	Color
100 to 130 VAC	Yellow
125/250 VAC	Orange
200 to 250 VAC	Blue
277 VAC	Gray
380 to 480 VAC	Red
500 to 690 VAC	Black

Simplify Installation

FASTER ASSEMBLY

Designed with fewer screws to ease assembly

Completely screwless back clamp available for 20/30 Amp devices cuts installation time even further by eliminating 2 additional screws and providing additional dust protection

Threaded housing design on plugs and connectors speeds installation

WATCH HOW FAST the LEV Series can be wired and assembled versus competition.

Faster Assembly = Labor and Cost Savings. **CALCULATE NOW!**

LEV SERIES

Simplify Installation

EASIER ASSEMBLY

Mounting feet attachment does not require drilling into the enclosure and can be adjusted for several angles

Bottom hinged cover designed with installer in mind

Captive screws for an easier installation

Receptacles and inlets come with **pre-attached gaskets and grounding wires for faster installation**

Clearly marked contact carriers offer quick identification of each wire location

Multiple grommets with cord diameter ranges molded-in make it easier to select the correct fit and minimize the risk of compromising a watertight seal

Captive terminal & assembly screws won't fall out during installation or servicing

For Use in Any Environment

SUPERIOR WATERTIGHT RATINGS

For Use in Any Environment

SUPERIOR PERFORMANCE & CONSTRUCTION

Nickel-plated brass pins & sleeves are self-cleaning and corrosion-resistant

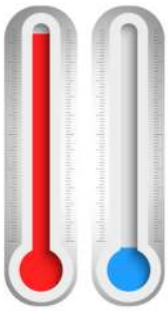

No space for debris to build up

NSF Certified sanitary design trusted for use in food & beverage environments

WHAT IS NSF?

Tested to endure impact at the most extreme temperatures

LEV Series: North American Configurations

20, 30, 60 & 100 A Watertight

INDUSTRY BEST 5 YEAR LIMITED WARRANTY

Product Features

- All plugs & connectors and 60 & 100 Amp inlets and receptacles constructed of impact modified nylon. 20 and 30 Amp inlets and receptacles constructed of PBT
- Nickel-plated brass pins and sleeves and stainless steel hardware for added corrosion-resistance
- Plugs & connectors available with alternate screwless clamp (20/30 A only) or power indication with Inform technology
- Watertight and dust-tight rated to IP66, IP67, IP68 and IP69K
- Listed to UL 1682 and 1686, CSA and NOM-ANCE requirements
- NSF certified sanitary design trusted for use in food & beverage facilities
- Meets North American IEC 60309-1 and 60309-2 standards

LEV Series Mechanical Interlocks

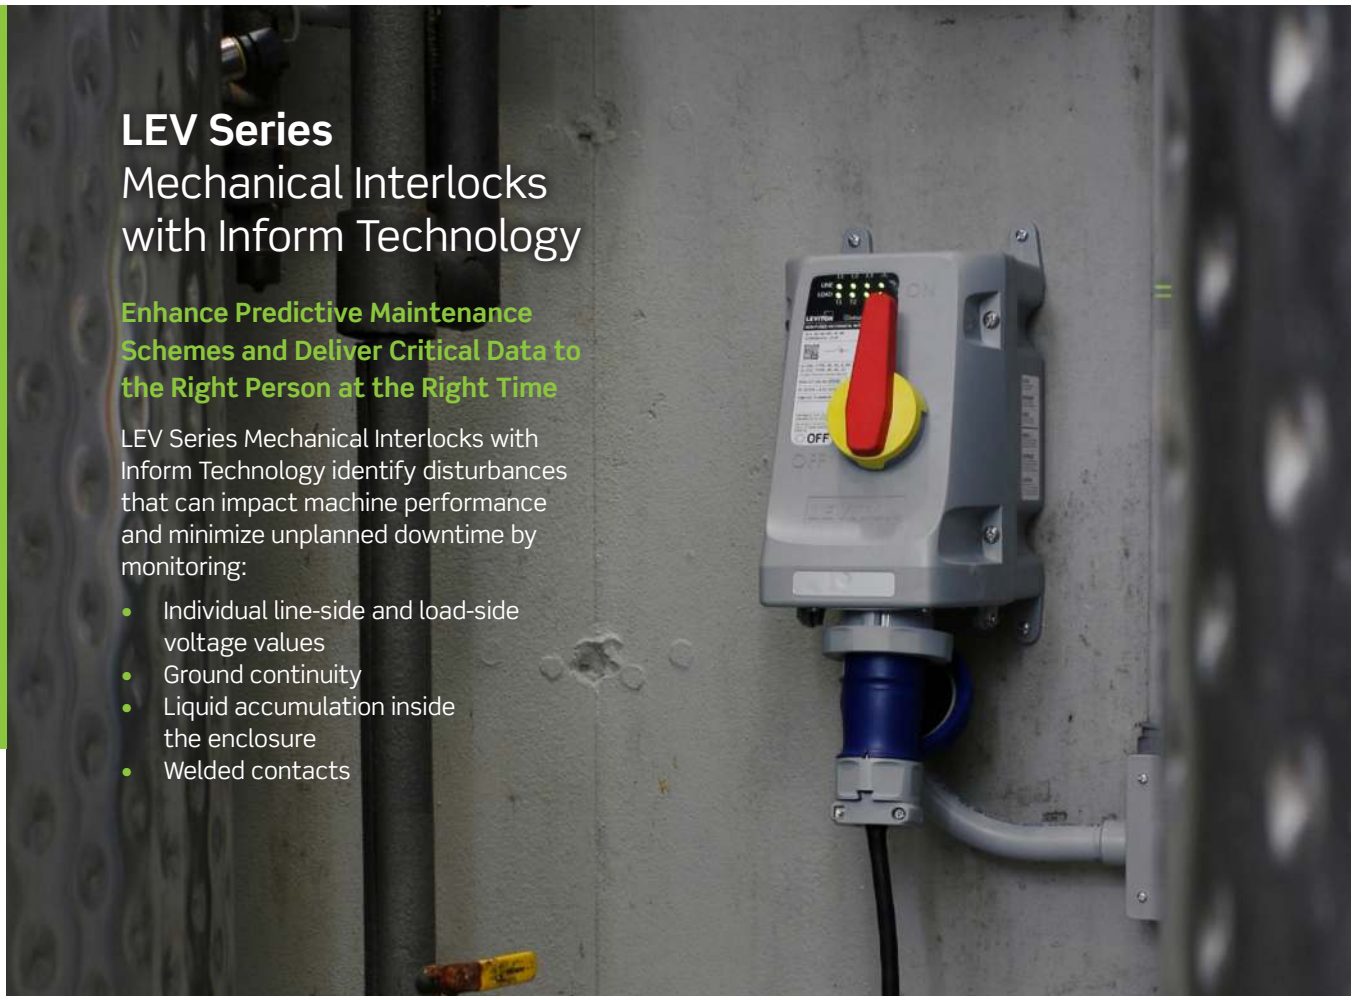

EXCLUSIVE INFORM™ TECHNOLOGY

inform™

Inform™ is a technology platform that enables Leviton products to provide real-time product data to the end-user. By utilizing smart IIoT solutions, facilities experience safer, more productive operations.

By adding sensors to our devices, users can continually monitor their device health and performance to confirm whether they are working properly. Using advanced analytics, actionable insights are pulled from the sensor data and immediately notify the end-user if there are abnormal operating conditions or a device failure.

LEV SERIES

LEV Series
Mechanical Interlocks with Inform Technology

Enhance Predictive Maintenance Schemes and Deliver Critical Data to the Right Person at the Right Time

LEV Series Mechanical Interlocks with Inform Technology identify disturbances that can impact machine performance and minimize unplanned downtime by monitoring:

- Individual line-side and load-side voltage values
- Ground continuity
- Liquid accumulation inside the enclosure
- Welded contacts

Don't let liquid slow you down.

Sensors identify liquid accumulation inside the enclosure and notify you before they can cause a device failure.

LEV Series Mechanical Interlocks

AVAILABLE WITH 24/7 CONDITION MONITORING

TAKE A 3D LOOK INSIDE

Local Monitoring

LED STATES

Steady GREEN – Normal Operating Condition
Flashing YELLOW – Warning/Minor Fault
Flashing RED – Abnormal Operating Condition/Major Fault
OFF – Normal Power OFF

Remote Monitoring

In addition to local monitoring data, remote monitoring allows for 24/7 access to insights of all devices, such as:

- Enclosure temperature
- Enclosure humidity
- Liquid accumulation
- Line- and load-side voltage values
- Ground continuity
- Support materials

The Inform app offers real-time notifications of abnormal conditions so you can respond faster to potential problems and minimize the duration of downtime events.

EASILY INTEGRATE INTO EXISTING AUTOMATION SYSTEMS

The Leviton Inform app is available on:

ArcArrest® Switch-Rated Pin & Sleeve

ENGINEERED FOR SAFETY, DESIGNED FOR FLEXIBILITY

No exposure to live electrical components or arc flash, even when operating under load

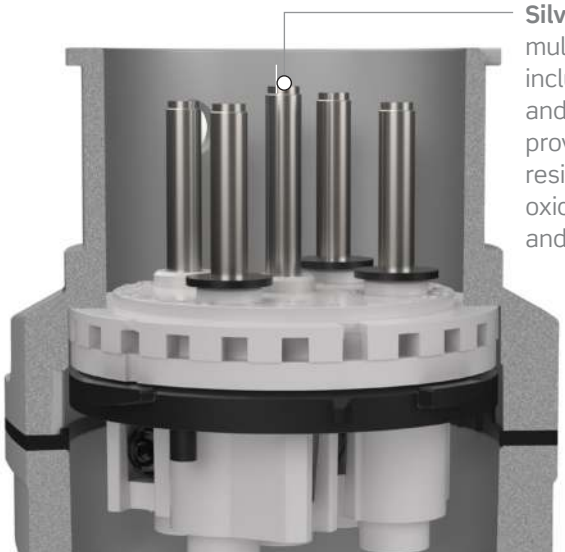

Dead front shutter protects users from arc flash and contact with live electrical components

Mounting angle fits on **any standard FS/FD Box**

Finger drawplates molded into handles for easy connection

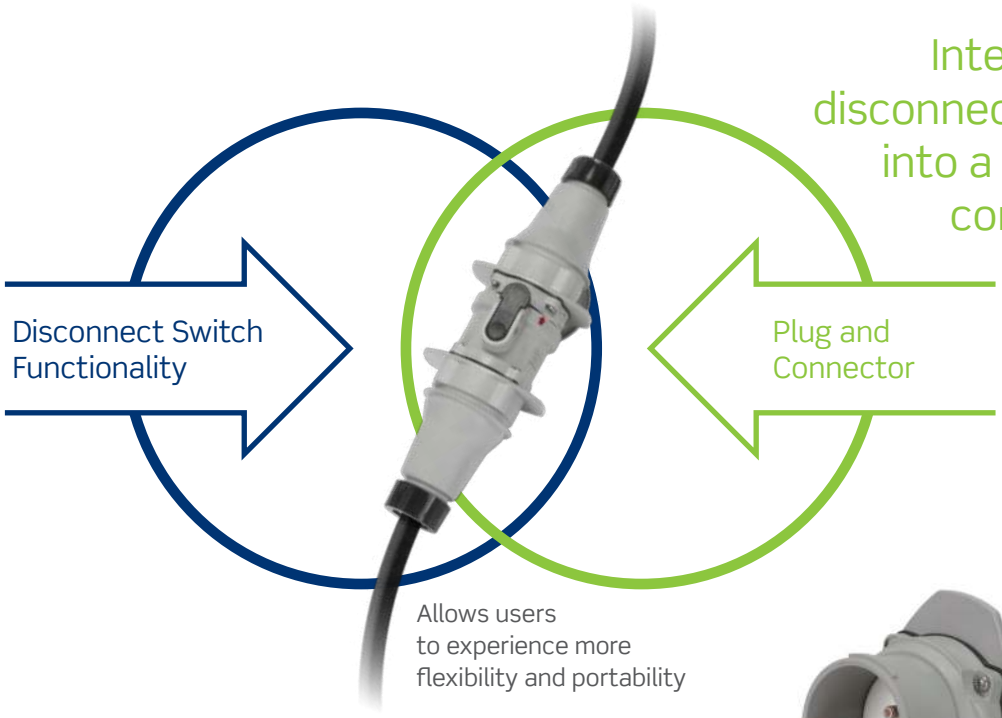

Silver tip contact provides multiple advantages, including withstanding wet and corrosive environments, providing low contact resistance even after oxidation and tarnishing, and withstands arcing

ArcArrest® Switch-Rated Pin & Sleeve

MEET UL1682 AND UL2682 REQUIREMENTS
MEET NEC REQUIREMENTS FOR LINE-OF-SIGHT DISCONNECTS

Integrates a disconnect switch into a portable connection

Allows users to experience more flexibility and portability

Lockout tagout provisions in both plug and connector allow for fast compliance with OSHA

Type 4X and IP69K rated

Eliminates ingress of dust, water, and high-temperature, high-pressure washdowns

ArcArrest® Switch-Rated Pin & Sleeve

30 & 60 A

Providing a local means of disconnect as required by NEC, rated for both branch and motor circuit disconnects.

Product Features

- Dead-front safety shutter design contains the arc within the device
- Silver tip contact provides multiple advantages, including withstanding wet and corrosive environments, providing low contact resistance even after oxidation and tarnishing, and withstands arcing
- Marked front and rear contact carrier and insert alignment arrows allow for easy installation
- Housing made of Valox
- 30 A devices feature captive terminal screws for easy installation
- Meet UL1682 and UL2682
- 1-year limited warranty

International Configurations

16 A Splashproof

INTERNATIONAL CONFIGURATIONS

Product Features

- Offering includes plugs, connectors, panel mount and surface mount socket outlets, inlets and backboxes
- Available in 16, 32, 63 and 125 Amps
- Ideal for use overseas where voltage and amperage requirements differ from North American standards

Splashproof (IP44) devices features:

- Easy access to wire chambers
- Locking strain relief grip
- Spring clip connection to speed assembly on 16/32 A plugs and connectors
- Rubber gland for watertight seal
- Easily opened, spring-loaded cap on connectors and socket outlets

KEY FEATURES:

- **Industry-exclusive** - the only manufacturer of ABYC certified Pin & Sleeve devices in the market
- **Marine grade** - withstands harsh, corrosive marine environments
- **Superior watertight ratings** - including IP66/67/68, & IP69K
- **Compatible with Leviton's Marine Grade Power Pedestals** - Rugged, high-quality pedestals featuring power, water, metering, and lighting, all built to your custom specifications.
