TS 8 Flange Mount Disconnect Enclosure – TS 9951.154

created: 29.05.2018 build on www.rittal.com/us-en

Product description

Description:	Includes operator handle interlocking kit to securely lock most commercially available operator handles to enclosure and door latch
Benefits:	Enhanced and greatly simplified hardware installation A rigid trim door to accept a variety of high and low amperage operator handles Optional high amperage adapter plate allowing future system upgrade without performing additional cutouts in the field while maintaining Type 12 rating Blank adapter plate option for non-disconnect conversions Easy-to-follow installation instructions for a variety of operator handle manufacturers Reduced width hinged trim door design for more usable panel mounting space Hinged and side access behind the operator handle cutout to make mounting the operator handle and connecting hardware easier Expandable and modular enclosure compatible with all standard TS 8 accessories
Applications:	The below operating handles represent the most common applications. Most commercially available operator handles will fit as well.
