Quick-change frame for roof-mounted cooling units – SK 3286.800

created: 24.05.2018 build on www.rittal.com/us-en

Product description

Description:	The quick-change frame is more than just an alternate frame. Together with the seal, the lower part of the frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the plug-in cooling unit with the upper part of the alternate frame previously mounted on the cooling unit with quick-release fasteners. During servicing work, this means shorter assembly times and so minimized downtime. What is more, the quick-change frame offers effective protection from the ingress of oil into the enclosure in oily atmospheres, thanks to its integral drainage trough.
Material:	Carbon steel
Color:	RAL 7035
Supply includes:	Quick-change frame Seal Quick-release fasteners
Suitable for Model No.:	3209.... 3210.... 3383.... 3384.... 3385....

Product features

Packaging unit:	1 pc(s).
Weight/packaging unit:	7.5 kg (16.5 lb.)
EAN:	4028177325418
