KWIKON® NEW CLEAR VUE™ COVERS

NEW PRODUCT SHOWCASE

Protect, Identify & Remove

Kwikon's **NEW** Clear Vue™ Covers are now available on all Round, Square and Shear Wall Kwikon Boxes.

Designed to stand up to the rigors of a slab deck, Clear Vue covers are manufactured to UL Standard 514C for Dielectric Strength and Flammability and ASTM rated for Impact Strength. While the Clear Vue Covers are designed to keep concrete slurry out of the box during a pour, they also provide the following benefits:

- Covers are easily removed to allow contractors to mark or paint the inside of the box for identification
- Clear Covers allow contractors to see the markings inside the box after the pour without having to remove the cover
- Covers prevent ceiling stucco spray from entering the box
- The tight friction-fit allows boxes to be prefabricated off site and transported to the jobsite without danager of the covers falling off during transportation
- Covers are easy to remove during the finishing stage

Products Include:

All SMB, SMBS, SSBH, SVDB, SVSB, MB and MBH boxes.
